

School-Based Mental Health Professional Inquiry

Share your thoughts about the pathways and decision processes involved in pursuing a school-based mental health career, as well as your attitudes towards current practices

This inquiry will inform the specifics related to school-based mental health professionals and yield best-practices for rural, frontier, suburban, and urban school districts throughout Colorado. We are gathering research on the pathways, decision processes, and current attitudes towards your school-based mental health career. **This survey is for:**

- **School-based mental health professionals including school psychologists, school social workers, school counselors, and school specialists employed by the Office of Behavioral Health at the Colorado Department of Human Services.**
- The survey will take about 15-20 minutes, with an opportunity to participate in an anonymous focus-group at a later date.

If you have any questions about participation, please contact robyn.thomaspitts@du.edu.
